PROFILE

Full stack developer (MERN) with hands on experience building and deploying multi role web applications, including authentication systems, payment gateway integrations, and AI assisted features. Currently a Full Stack Developer Intern at Zidio Development. Consistent academic topper pursuing a Bachelor's in Computer Application at Tribhuvan University.

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern, Zidio Development

07/2026 - Present, Remote

Working as a full stack developer on Project LOOP, an AI powered customer feedback intelligence platform, as part of a two person team.

- Integrated the Google Gemini AI SDK to power feedback sentiment and theme classification, and automated VOC report generation with risk matrix and evidence sections.
- Built a multi turn "Ask LOOP" conversational AI feature for querying feedback data.
- Refactored backend REST APIs for transaction safe, ACID compliant database operations, and added rate limiting, HTTP security headers, and XSS protections.

Data Entry Operator, IIMI Asia Pacific Pvt. Ltd.

05/2024 - 09/2024, Remote

Accurately entered, updated, and maintained large volumes of data while ensuring quality, consistency, and confidentiality under strict deadlines.

PROJECTS

CricketNepal, Full Stack eCommerce Platform

Live: cricket-nepal-kappa.vercel.app
GitHub: sonuthakur03/cricketNepal

Multi role (buyer, seller, admin) MERN marketplace for cricket equipment with JWT authentication, Cloudinary uploads, and three integrated payment gateways (Khalti, eSewa, Stripe). Server side stock reservation and role based order management.

Project LOOP, AI Customer Feedback Intelligence Platform

GitHub: sonuthakur03/loop

Built during a full stack internship at Zidio Development. Integrated the Gemini AI SDK for sentiment and theme classification and analyst grade VOC report generation, plus a multi turn AI chat feature for querying feedback data.

PublicCare, Civic Complaint and Hygiene Management Platform

GitHub: sonuthakur03/PublicCare

Built in a 3 day team hackathon (Embark Community Innovation Hackathon). Lets citizens report civic issues with GPS location and photo evidence, and connects municipal staff with contractors through an integrated tendering system. Built the authentication system and the vendor and tendering module.

StudyTrack Nepal, Study Progress Tracker

Live: study-tracker-gules-delta.vercel.app
GitHub: sonuthakur03/study-tracker

Full stack MERN app for tracking learning progress with automated daily email reminders, a streak tracking system using node cron and Nodemailer, and an admin panel.

EDUCATION

Bachelor's of Computer Application (BCA), Tribhuvan University

12/2023 - Present

Kathmandu, Nepal. CGPA: 3.63/4.0. Rank 1 in every internal and board examination to date.

Higher Secondary (SLC/NEB), Viswa Niketan Secondary School

06/2021 - 04/2023

Kathmandu, Nepal. Management stream with Computer Science as major.

SKILLS

Languages and Frameworks: JavaScript, Java, Python, PHP, React, Next.js, Node.js, Express, Django, .NET

Database: MongoDB, MySQL, Prisma, DBMS fundamentals

CS Fundamentals: Data Structures and Algorithms, Application Security, JWT/REST API design

AI Tools and Other: Claude, Claude Code, Antigravity, AI SDK integration, Figma/UI-UX design, Project Management, Git/GitHub

CERTIFICATES AND ACHIEVEMENTS

BugV CTF 2026, 3rd Place — Swoyambhu International College
Solo capture-the-flag security competition; solved challenges using AI-assisted tooling.

Embark Community Innovation Hackathon — Jul 2026
3 day team hackathon at Embark College; built PublicCare, a civic complaint management platform.

UI/UX Design Training, 30 hours — Swoyambhu International College

Python with Django, 30 hours — Swoyambhu International College
